HYUNDAI
MATERIAL HANDLING

Your satisfaction is our priority!

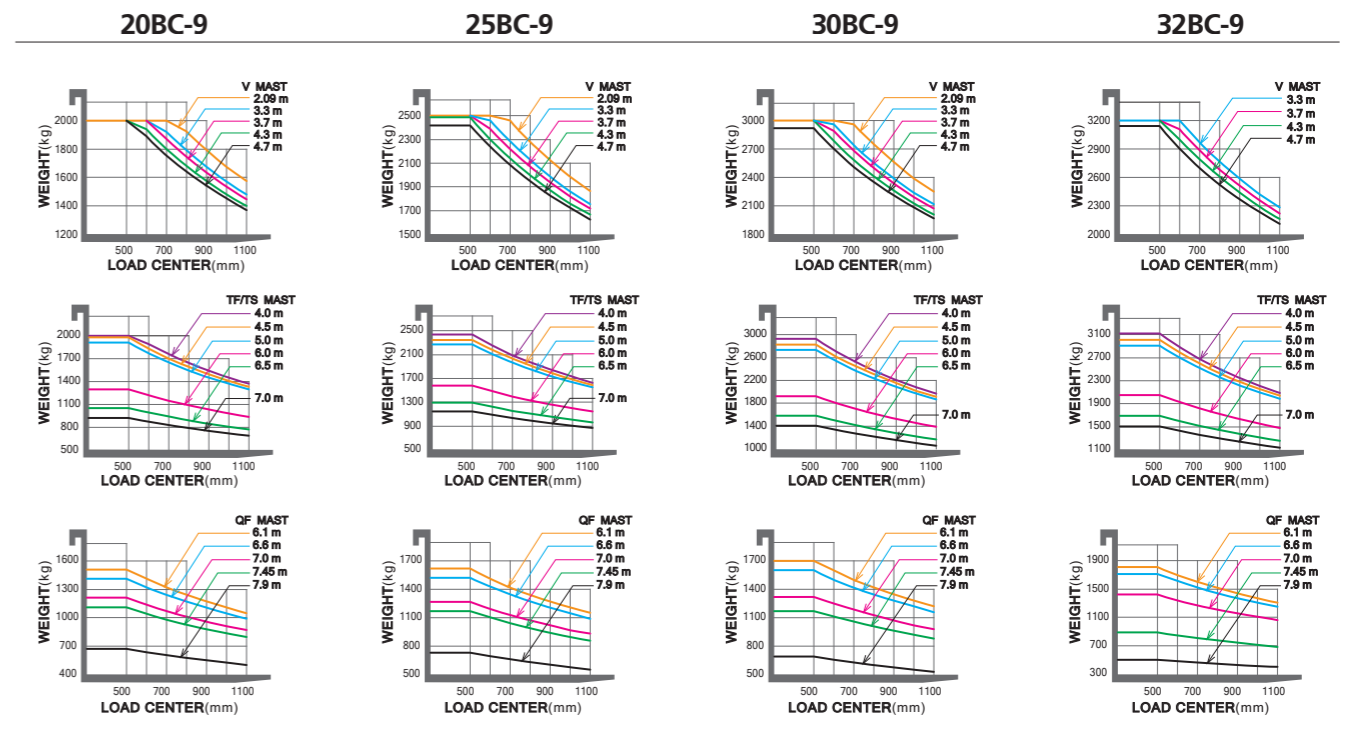

Hyundai introduces a new line of **9-series** battery forklift trucks.

The newly designed 4 wheel counterbalance trucks provide every operator comfortable driving, increased productivity and easy maintenance.

□ TS-Mast : Wide Visible 3-Stage Full Free Lift Mast with 2 Free Lift Cylinders.

* Standard

Compact forklift with proven AC technology

- Maximum performance
- Comfortable operating room
- Load Weight Indicator
- Battery side loading system
- Curve control system
- Fingertip controlled mini levers available (optional)
- Safety system that prevents over loading (optional)

High Efficiency & Optimal Performance

An ideal arrangement of components provides highly visible operational indicators, and convenient access to maintenance settings and diagnostics.

20/25/30/32BC-9

More efficient operating control levers (Optional)
Electronic directional control and secondary horn are mounted to the hydraulic lift lever for quick and precise maneuvering.

Finger tip control levers (Optional)
The finger tip control lever allows more precise control and fatigue-free working. The ergonomically designed armrest can be adjusted up, down, forward and backward for various operator's body type.

■ Some of the photos may include optional equipment.

Advanced drive and lift performance with proven durability and low maintenance
The enclosed drive and pump motor with AC technology combine power, high maintenance intervals and excellent durability. The brushless AC motors offer improved efficiency and reduced maintenance cost.

■ Some of the photos may include optional equipment.

Easy battery replacement
The battery compartment is equipped with a side battery removal assembly for easy removal and replacement.

Advanced LCD Monitor
The LCD color monitor with 3.5 inch Electrical Forklift display allows the operator to easily and efficiently control the machine. The monitor provides information about speed level, steer angle & travel direction, battery discharge indicator, hour meter & working mode. The load indicator displays the load weight in the monitor. The operator can select various performance modes to meet all working conditions, and it is available multi-languages (maximum 12) for operators.

H (High) mode **N** (Normal) mode **E** (Economic) mode
Turtle mode

Brake oil reservoir with level sensor
The enhanced brake oil reservoir, located in the upper left dash, is equipped with an electronic level sensor and easily visible through the monitor.

Optimized Ergonomics & Fast and Easy Maintenance

Efficiency in design provides smooth running and powerful performance to make you more productive.

20/25/30/32BC-9

Spacious operator compartment

The newly designed operator compartment has ample space, providing a wider field of view and great operator comfort.

■ Some of the photos may include optional equipment.

Optimized pedal position and floor mat

The position of accelerator and throttle have been optimized for operator comfort.

Large entrance step

Wide and non-slip step offers convenience and safety when entering and exiting truck.

Adjustable steering wheel

To achieve a comfortable drive position, the angle of the steering column can easily be adjusted through a lever on the right-hand side of the steering column.

Grammer seat

With an orange seat belt (now standard), this easily adjustable suspension seat has two lumbar settings and adjustable armrests, and provides great comfort, reducing operator fatigue.

■ Some of the photos may include optional equipment.

Curve control

Curve Control limits travel speed based on turning radius, reducing speed for a smooth, precise turning operation for the driver.

Max. Gradeability (loaded)		Max. Travel Speed (Unloaded)	
Model	%	Model	mph
20BC-9	24	20BC-9	11
25BC-9	20	25BC-9	11
30BC-9	18	30BC-9	11
32BC-9	17	32BC-9	1

Anti roll back system, travel speed and gradeability

Anti Roll-back system offers protection against the machine rolling back on a ramp in combination with exceptional ramp start capabilities.

Advanced Safety

Hyundai forklifts are equipped with many safety features as standard, providing operators with a safe and comfortable working environment.

20/25/30/32BC-9

■ Some of the photos may include optional equipment.

Excellent visibility for safe operation

Optimized lift cylinder arrangement provides operator with a wider span of visibility.

Fork safety features

When the forks are being lowered, a down-control valve maintains the controlled speed. The down-safety valve prevents forks from dropping down in case of sudden damage of hydraulic line.

OPSS(Operator Presence Sensing System)

When the operator is not in the seat all mast and drive movements are inoperable.

Lift Lock **Tilt Lock** **Drive Lock**

■ Some of the photos may include optional equipment.

Panoramic mirror

The panoramic mirror expands the driver's view when backing up.

Strong overhead guard

Exceeding EEC and ANSI regulations, the overhead guard offers great protection combined with excellent all around visibility.

Safety lamps & rear reflectors

LED combination lights and halogen headlights offer the driver visibility in all circumstances. Rear reflectors mounted on the counterweight enhance safety for the driver and the application.
